Project Definition

If the correct permissions are added, a user can create projects with details of customer, supplier and company/department.

A budget is required for each project. If the project is internal, the budget is allocated by the head of department. If it is an external project, the company must allocate the budget.

Project [Nr. 224] Schutzgitter Abblasleitung LKA CHA 1731780

1. A budget is required for each project. If the project is internal, the budget is allocated by the head of department. If it is an external project, the company must allocate the budget.
2. An order for an internal project is subject to the following order for ordering: Head of Department -> Company Manager -> Company Purchasing Department.
